DETAILED ACTION

Specification

1. The specification of the disclosure is objected to because the arrangement of the application is not consistent with the preferred layout of a specification for a utility application.

The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC (See 37 CFR 1.52(e)(5) and MPEP 608.05. Computer program listings (37 CFR 1.96(c)), "Sequence Listings" (37 CFR 1.821(c)), and tables having more than 50 pages of text are permitted to be submitted on compact discs.) or
REFERENCE TO A "MICROFICHE APPENDIX" (See MPEP § 608.05(a). "Microfiche Appendices" were accepted by the Office until March 1, 2001.)
- (e) BACKGROUND OF THE INVENTION.
 - (1) Field of the Invention.
 - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (f) BRIEF SUMMARY OF THE INVENTION.
- (g) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (h) DETAILED DESCRIPTION OF THE INVENTION.
- (i) CLAIM OR CLAIMS (commencing on a separate sheet).
- (j) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).

(k) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

Correction is required.

Allowable Subject Matter

2. Renumbered **claims 1-12** are allowed.

3. The following is an examiner's statement of reasons for allowance:

As per independent claims 1, 4-7, 10 and 11, the cited prior art, either singly or in combination, fails to anticipate or render obvious a method and system for transmitting and assembling mutually related objects, whereby mutually related objects which associate to an application at a given time are determined, and the time dependent element is combined with a size indicator for each of the mutually related objects to establish transmission consistency between objects.

Kuwabara, U.S. Patent No. 5,909,439, teaches of using a satellite communication system for transmitting and receiving application specific data, but fails to specifically focus on the aforementioned method of transmitting and assembling application specific objects relative to the combination of time dependency and size indicators.

Wester, U.S. Patent No. 5,729,298, teaches of the transmitting and receiving of cyclic information and employing a means for determining an update to data being transmitted through the use of check-words, but fails to explicitly teach of the aforementioned method of determining

transmission consistency based upon time dependent objects, and the distinguishable size of objects combined in the transport entity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. This application is in condition for allowance except for the following formal matters:
the above noted corrections regarding the form of the disclosed specification.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
